To whom it may concern:

In response to your proposal of expanding LPFM to take priority over the current FM translator service.

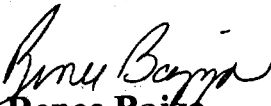

I listen to K-LOVE and it is my understanding that I listen to it over an FM translator and if you remove this I could lose my radio station.

K-LOVE serves the community by having positive and uplifting music. I do not have worry about what I hear and especially what my children hear. Also the news reports are not biased. I believe the news reports are as close to the actual truth as can be found.

If you replace this and LPFM broadcaster you are exposing my family to programming that we would probably find objectionable. Off color music and possibly even programming such as Howard Stern as an example.

K-LOVE provides a safe listening environment for my family as well as others. There are not many stations like this and I don't want my choice being eliminated.

Thank you for listening.
